

We are posting information on the emergency address signs that have been installed in Franconia Township. This information is to shed some light on the reasons for these signs and a contact number if there are any questions or concerns.

The signs have been installed in many townships in Chisago and other counties. The main reason for this, is to help aid the fire, police and ambulance emergency services to better assist your residence in case of an emergency. Many homes only have small house numbers on their mail boxes or only have them on the house. Some do not have any on them at all. This makes locating the correct address difficult in the time of need. These signs will help tremendously with the response time for the emergency services.

They have been installed in a uniform fashion for the drivers to know where to look when responding to a call. We do realize that the signs sometimes are in a nuisance spot or a site line, but we have tried to keep them all approx. close to the same location when installing them. If you have questions and or concerns with the location of the sign or would like more information on this, please feel free to call me.

Thank you
